

# Foster Home Application

Although most of our dogs reside at our rescue, there are situations when it is better for the dog to be placed in a home environment. This may be related to health issues or simply because a dog cannot adjust to a kennel environment.

The welfare of the dogs is our primary concern and we screen applicants to ensure the dogs are in a suitable environment, one which can provide for the unique needs of the Great Pyrenees. There is a need for qualified foster homes and we invite you to tell us more about your situation and your ability to foster.

**GPRW**
